- working with low functioning clients
- extending the dance medium: props, music, dance styles, arts forms

This workshop is for dance-movement therapists and others working with children with special needs and adults with intellectual and physical disabilities, including community dance practitioners, disability professionals, dance, music and special ed teachers, music and creative arts therapists.

Experienced practitioners and those wanting to develop new skills welcome.

Introducing a framework of assessment for dance and dance movement therapy programs, especially for people with intellectual disabilities

Saturday June 18, 2 - 5 pm

Lucy Guerin Studio, 14 Batman St, West Melbourne

This workshop will introduce a framework of assessment for participation in dance-movement programs by people with special needs and intellectual disabilities. Theory will be complemented by practice: participants will use the framework to analyse video material of clients' participation in a dance movement therapy program. This will be followed by discussion on topics including:

- introducing dmt principles and the assessment framework to senior staff and school (or other organization) management
- harmonizing dmt assessment with other assessment frameworks, especially those in schools
- engaging non-specialist staff in the assessment process
- reporting to parents, especially those from different cultural backgrounds.

This workshop will be primarily directed to those working with children and adults with intellectual disabilities, but may also be of interest for those wanting to know more about assessment and evaluation in dance movement therapy more generally.
